Subject: R3 Chemical Spill Assistance...
[smime.p7m](#)

Just checking in with you to see if this a formal assistance request. Our staff cannot commit lab time and resources without management OK.

We will need an estimate of how many samples/i.e. what the request entails, and when you need the results. I would like to check in with Larry to make sure we can accomplish this by the time you need it and whether he can do it at all. I'm sure he can, but I want to make sure there are no instrument issues that might delay it. I will put it on our sample schedule and make sure you guys get a copy so you can keep tabs on the progress.
